OVERVIEW

**TOGETHER
WE
ACHIEVE
MORE**

Welcome to NLP Group of Charitable Hospital & Institutions

NLP Group of Charitable Hospital & Institutions established in 2012, to cater to the educational needs and aspirations of people of India. This charitable hospital has the availability of specialist doctors in different departments and is always adding to the list. The rooms are very spacious & well ventilated with a pollution-free environment, which is necessary for the patients. Hygienic, Cleaning, Disinfecting, & Sanitizing are explicit parts of the hospital. We hope that every year we will work for this region and help bring it forward. Since the Hospital is run by a Trust that assists the needy, there are no other sources of income. Hence, the hospital requires support from your organization. The NLP Group of the charitable hospital & Institutions is the best hospital in Jaunpur and is a blessing to the rural and needy people of Uttar Pradesh. Hospital is managed by a trust – NLP Group Charitable Public Trust, which provides the best healthcare services led by only the finest medical technology, equipment, and education facilities in the backward and undeveloped areas. Education and training in public health including studies on the education and training of public health professionals as well as research looking at teaching volunteers and the community the skills they need to function effectively in contributing to public health efforts.

Directors Message

“Medical care for all”

Dear Students,

NLP Group of Charitable Hospital & Institutions has evolved as a unique educational hub blending excellence, empathy and futuristic needs. With our state-of-the-art infrastructure, the students will be acclimatized to proficient work culture and emerge as well- rounded professionals that the industry desires to have. Quality NLP Group of Charitable Hospital & Institutions should orient national development that should aim at training the younger generation the life saving skills, self-reliance, community service and social integration.

Our college heralds the new beginning of medical education and marches ahead towards excellence in the field of medical education by the indefatigable services rendered by our management & faculty. We welcome the young dynamic students who can change the lives of other people as we do here. I wish you all to do the very best in all your future endeavours.

CMS ED

COMMUNITY MEDICAL SERVICE

ESSENTIAL DRUGS

Overview of the Course

NLP Group of Charitable Hospital & Institutions offers two year CMSED diploma program that provides you authorization to open your own first aid treatment centre. It is a certificate of Primary Health Care by standard Allopathic Medicine, recommended by the World Health Organization (WHO) for Primary health Care. Honorable the Supreme Court has ruled that holders of the CMSED Diploma can use Primary Health Care treatment options for patients.

The program helps you in pursuing your career in medicines without going for a rigorous procedure of doing an M.B.B.S degree. The program provides you lectures about the basics of medicines, demonstrations, and develops practical skills with the help of health camps, hospital & rural health centre postings, etc. CMS ED course is conducted by Indian Rural Medical Association. By a decision of the Honorable High Court, after a diploma, you can work as a primary health worker and you can prescribe general allopathic medicine.

Are you willing to provide Primary Health Service? If yes, then CMSED is the course for you. CMS ED diploma course intends to provide basic knowledge of the structures of the human body and physiology along with the science of drugs and their administration and so forth. The duration of the program is 2 years. This course is designed for those who are keen to build their career in the medical field. The program will not only provide you with the knowledge of medicines but it will also make you a certified medicinal professional and you will get the diploma certificate from Indian Rural Medical Association (IRMA).

INDIAN RURAL MEDICAL ASSOCIATION

Established at 1978

The Indian rural medical association is the pioneering and only body in Indian is embracing highly qualified doctors, the rural doctors of all the disciplines, viz allopathy, Ayurveda, Homeopaths, Unani and others including paramedics under one umbrella. This is an IRMA's unique character and we are proud of it. This association is directly descended from Humanity Association established by Late Ajit Mallick under the guidance of Gandhi during British Rule in 1924.

The number of trainees rise every day; it exceeds 47,500 in January 1998. (Highest in the World) The association is affiliated to world rural medical association based in Geneva, Switzerland. It conducts training under guideline policy of WHO, UNICEF and Government of India. The association has a sister organization in almost all the Asian, African Countries namely Nepal, Sri Lanka, Nigeria, Ghana, Vietnam etc. It has also collaborated on specific projects with Red Cross.

Key Highlights of CMS & ED (Community Medical Service & Essential Drugs)

The CMSED program is a diploma course and it helps people in being medicinal professionals to open their Primary Health Care centre.

The duration of the program is 2 years that will teach you different aspects of human anatomy and medicinal Essential drugs.

The course will help you equip with the basic knowledge of diseases of the human body. The course is for those who are willing to pursue their career in medicine.

CMS ED

Eligibility

The candidates must be 10 or 12th passed in any stream from a recognized board to take admission in the CMS ED program.

Duration 2 years

Fill in your contact details to create your account on the website. Then proceed to fill out the application form where you have to provide your basic details. Then submit your academic fees. We will provide user id and password.

Documents

1. 10th or 10+2 mark-sheet and certificate
2. Passport Size Photo
3. Aadhar Card (Both side)
4. 2 Years Experience Certificate

Career Scope After CMS & ED Course

It has been observed that there is a huge shortage of medical professionals in both urban and rural areas. However, rural areas suffer more due to a lack of medical professionals and there are approx 30% of centres run without doctors. Hence, it is important to fill these positions especially in semi-urban and rural areas with some certified doctors with at least basic knowledge of human anatomy, knowledge of medicines for primary medical care and first aid treatment. After the completion of CMS & ED course, candidates will be able to use Allopathic Drugs, which was approved by W.H.O for the urban and rural areas after opening his/her Primary Health Care Centre (PHC Centre) in the urban and rural areas of whole India. & Jobs at Govt. Hospital and private Hospital.

IN THE SUPREME COURT OF INDIA
CIVIL APPELLATE JURISDICTION
CIVIL APPEAL NO. 172 OF 1993

670573

Subhasis Bakshi & Ors.

Appellants

versus

West Bengal Medical Council & Ors.

Respondents

JUDGMENT

RAJENDRA BABU, J. :

"Thou shall not prescribe, but treat". Does this commandment stand the test of legal scrutiny? This is the stark and simple question to be decided in this case.

The long-winded facts of this case read as follows:

That about 337 persons, including the appellants had completed the diploma course of Community Medical Service in duly recognized institutions in the State of West Bengal and were posted in different parts of the State by the Government of West Bengal. On October 15, 1980 vide Notification No. Health/MA/7078/5M-5/80 the Government of West Bengal made an amendment in the Statute of the State Medical Faculty by introducing Article 6F under Part B, which reads *verbatim* as under:

"6F: Students who will undergo and complete the requisite course of studies in Medicine/Medical Science (as defined and detailed in the Schedule to this article and hereinafter called as the said Regulations for the Diploma course in Community Medical Services) in Medical Institutions, duly recognized by the State Medical Faculty of West Bengal, shall be admitted into examinations in the subjects laid down in the said regulations and the students passing the examinations shall be granted Diploma with the abbreviation "Dip. C.M.S.", by the Governing body of the aforesaid Faculty.

The Governing Body of the aforesaid Faculty shall also maintain a Register of such Diploma holders with a view to regulating, supervising and restricting their practice for the present."

The objective of the said Notification, as detailed therein, is as follows:
"1. Objectives:

- i). To provide medical training to a group of personnel to man the Health Centers and Subsidiary Health Centers.
- ii). Emphasis is to be given on comprehensive Health Care of the Community including promotive, preventive and curative aspects.
- iii). A candidate after successfully completing the course of studies will act as a Team Leader of various categories of Field Workers.
- iv). Training in curative medicines is to be imparted in such a way that after completion of training the trainees can treat common diseases among rural population including communicable diseases, malnutritional states, snake bite, insecticidal poisoning etc. Instructions on diseases requiring sophisticated treatment not practicable in Health Centers will be restricted to the barest minimum. However, such candidates should learn to recognize sign and symptoms of more serious diseases requiring special treatment at referral hospitals (e.g., Sub-divisional or District Hospital) so that such patients may be sent early to these institutions.
- v). The training in promotive and preventive aspect of Health Care including Family Planning and Child Care should be undertaken by actual

participation in the field work under the supervision of their teachers along with the field workers.

vi). A substantial part of the training will be conducted in Health Centers where they will reside along with their teacher in each term of their course so that they are exposed to the field condition from the beginning of their course."

On 23/6/1987, the Government of West Bengal issued a Corrigendum and the Diploma that was earlier known as 'Diploma in Medicine for Community Physicians' was rechristened as 'Diploma in Community Medical Service.' Apprehending that the re-naming would have a detrimental effect on their rights, the appellants filed W.P. No.7052/89 in the Calcutta High Court. The said Writ Petition was disposed of by the learned Single Judge on the assurance given by the Government Pleader that the State was willing to award the 'Diploma in Community Medical Service' to the successful candidates. It was also assured by the State, in the said petition that it would provide jobs to such candidates in accordance with the stated policy of the Government. The learned Single Judge of the High Court made it clear that the Diploma Holders will not have the right to private practice and that part of the order was not challenged by the appellants at all and entry in the register is only for the right to prescribe medicines and issue certificates.

Aggrieved by the order of the learned Single Judge, the appellants preferred an appeal before the Division Bench of Calcutta High Court. The Division Bench assured that the change in the nomenclature would not affect the Appellants right. The Division Bench reiterated that "the persons holding the

Diploma and employed to man the Health Centers and Subsidiary Health Centers would be competent to treat common diseases among rural population including communicable disease, malnutritional states, snake bite, insecticidal poisoning etc...". The Division Bench also mentioned the stated Government policy on providing jobs to such Diploma holders. Upon this the High Court opined that in the light of the clarifications made by and on behalf of the State Medical Faculty and the State, there should be no reason for the appellants to entertain any kind of apprehension with regard to their being able to perform functions and duties which they as are entitled to do under the Regulations as amended vide notification dated October 10, 1980. Pertaining to the registration of names in the Register of Diploma holders, the High Court stated that the Register shall be prepared and will be maintained in accordance with and in terms of the Statute 6F and that necessary formalities in that regard will be completed on or before March 31, 1990.

This judgment of the High Court was not complied with by the State. Contempt Application was filed on September 7, 1990 in the High Court. By the time, on November 21, 1990 Director of Health Services, West Bengal vide Order No. HPH/10 'S-3-90/1512 issued Job Description of Community Health Service Officers. While hearing the Contempt Application on November 23, 1990 the High Court accepted the assurance given by the Secretary to the Government in Department of Family Welfare in the presence of Secretary of the Medical Faculty and the State Medical Council that the Government would issue fresh instructions to the Job Description of Community Health Officers. These fresh

qualification. While recognizing the rights of vaidas or hakims to prescribe allopathic medicines, this Court also took into account of the fact that qualified allopathic doctors were not available in rural areas and the persons like vaidas / hakims are catering to the medical needs of residents in such areas. Hence the provision which allows them to practice modern medicine was found in the public interest. In this context *Dr. Mukhtiar Chand* holds that "...it is thus possible that in any State, the law relating to registration of practitioners of modern scientific medicine may enable a person to be enrolled on the basis of the qualifications other than the 'recognized medical qualification' which is a prerequisite only for being enrolled on the Indian Medical Register but not for registration in a State Medical Register. Even under the 1956 Act, 'recognized medical qualification' is sufficient for that purpose. That does not mean that it is indispensably essential. Persons holding 'recognized medical qualification' cannot be denied registration in any State Medical Register. But the same cannot be insisted for registration in a State Medical Register. However, a person registered in a State Medical Register cannot be enrolled on the Indian Medical Register unless he possesses 'recognized medical qualification'. This follows from a combined reading of Sections 15(1), 21(i) and 23. So by virtue of such qualifications as prescribed in a State Act and on being registered in a State Medical Register, a person will be entitled to practice allopathic medicine under Section 15(2)(b) of the 1956 Act." Based on this reasoning this Court partially overruled *A.K. Sabhapathy*, which earlier ruled that a person could practice allopathic medicine only if he possess a recognized medical qualification. In *Medical Council of India & Another v.*

State of Rajasthan and Anr. (1996) 7 SCC 731 (2 judges), it was observed that "...It would thus be clear that the basic qualification of MBBS as a primary qualification is a precondition for a candidate for being registered in the State Medical Register maintained by the State Board...". Identical view expressed in the decision in *A.K. Sabhapathy* on the same point having been overruled, this view in *Medical Council of India vs. State of Rajasthan* [supra] also stands impliedly overruled.

Coming back to the case in hand, the Division Bench in the impugned judgment relied upon *A.K. Sabhapathy* to deny the appellants' right to prescribe medicines or to issue sickness or death certificates and held that the appellants do not possess the 'recognized medical qualification'. In the light of the ruling in *Dr. Mukhtiar Chand* this view of the Division Bench cannot be sustained. Therefore there is no bar to register the name of the appellants in the State Medical Register.

Now the only issue for consideration is whether the right to issue prescription or certificates could be treated as a part of right to treat. In *Dr. Mukhtiar Chand* it was pointed out that "...because prescribing a drug is a concomitant right to practice a system of medicine. Therefore, in a broad sense, the right to prescribe drug of a system of medicine would be synonymous with the right to practice that system of medicine. In that sense, the right to prescribe an allopathic drug cannot be wholly divorced from the claim to practice allopathic medicine." The appellants are validly holding the right to treat certain diseases.

So their right to issue prescriptions or certificates cannot be detached from their right to treat. Such right to issue certificates or prescriptions is imbedded in the right to treat. One cannot and shall not be separated from the other. Once the right to treat is recognized, then the right to prescribe medicine or issue necessary certificate flows from it. Or else the right to treat cannot be completely protected. Hence, even assuming for a moment that the 1915 Notification is not there, still the appellants' right to prescribe medicine cannot be denied. In that view of the matter, the order of the Division Bench is set aside and that of the learned Single Judge is restored.

Therefore, the respondents shall make necessary arrangements to include the names of all the concerned Diploma holders in the State Medical Register for the limited purpose indicated therein within a period of six months from today. The appeal is allowed accordingly.
